Mrs. Sadler's
Chromebook and Schoology FAQs

Helpful hints and tips for our digital classroom

What is Schoology?

Schoology is a learning management system that allows you to experience lessons, complete assignments, take assessments, interact with others, and submit work online.

Why are we using Schoology?

Schoology is a great way for us to keep everything in class organized, and it can be accessed from any computer with access to the web. Think of it like a huge, digital notebook.

How often will we use Schoology?

Schoology will be used daily in class. We are a **blended** classroom, meaning that we will use online resources as well as traditional paper and pencil resources.

Where can I find important class info?

Our course is organized by folders. There is a folder (that remains at the top of your list) that contains important class information like calendars, guidelines, etc.

What if I have a question after class?

If you're working from home, the easiest way to contact me is by email (ssadler@ccps.us). I will check my email by 8:30 PM each night. If you email me after that time, I may not see it until the next day. I check my email periodically over the weekend as well. **Note: Procrastination on your part will not make an emergency on my part. Make sure you stay on top of your assignments to avoid penalties.**

What if I don't have internet access at home?

No worries! Assignments that require internet access will be done mostly in class. However, if you get off track or miss time in class, you may need to make arrangements to stay after school to access the internet.

Where will I see my grades?

Schoology and PowerSchool are linked, so you will be able to see your grades on assignments in both places. However, if you'd like to monitor your overall average, you should log in to PowerSchool.

How quickly will I see my grades?

This depends on the assignment. Some assessments (like vocabulary quizzes) will give you instant results upon completion. Other assessments (like short answer responses) will require my review. I typically have these graded within a business day. Essays and projects require more attention to detail, and I take about a week to get them back to you.

Can I use my phone/tablet/laptop instead?

We have a classroom set of Chromebooks, and I will ask that you use those in class. You are free to access the materials outside of class on your personal devices, but there are some applications that have to be completed through our school's secure server.
